PREFACE TO THE FOURTH EDITION

A NUMBER of minor corrections, which have come to light since the volume was last printed, have been incorporated in this fourth edition.

PREFACE TO THE THIRD EDITION

THIS volume contains the entries, as they appeared in *Who's Who* for the last time, of those who died during the years 1916–1928, brought up to date and with the date of death added. The number of children shown in an entry is the number living at the date of the last issue of *Who's Who* in which the entry appeared.

When this volume was first published in 1929 a certain number of entries were omitted as it was not then known to the publishers that those concerned had died. In this third edition such entries have been included in an enlarged Addenda on pages xv–xxxii and cross-references have been added at the foot of those pages on which such entries would have appeared alphabetically in the volume itself.
